LAUNDRY ROUTINE

Follow these steps to avoid the chaos of a huge laundry pile!

SET A TIMER

A timer goes a long way in helping to get the laundry ready before you wake. This will help to stop wrinkles and keep laundry fresh and ready to dry.

PUT AWAY

Dry, fold and put away the same day you wash, this will avoid the piles of unwashed and washed laundry which tend to pile up causing you to get overwhelmed.

WASH

Wash at least one load every single day! This keeps the washing basket from overflowing and is the first step to getting the laundry ball rolling!

USE BASKETS

Give everyone in the house their own basket, and wash by person. This will help when it comes to putting away the laundry and will encourage you to tackle the job straight away.

SOCKS

Save time matching socks by assigning each family member their own colour of plain sock. No more missing pairs!

Have a great start to the day!
